or pay at the door.

BrionToss has over 35 years of yacht rigging experience. He practices a systems approach to rigging, which sets him apart from the crowd. This approach means that all components – the rig, hull structure, and even the sailor – are treated as an interdependent, interrelated system. Brion's philosophy was born out of a lifelong interest in sailing and in the people who sail.

- Author of *The Rigger's Apprentice*, *The Rigger's Locker*, *Chapman's Guide to Knots*, and *Working Rope – Field Guides for Rigging*.
- Regular contributor to *Sail*, *Practical Sailor* and *Cruising World* magazines; as well as a contributor to *Boat US - Ask the Experts* and his own *Fair Leads* column and *SparTalk*.
- Has produced numerous technical rigging videos, including *Inspecting Your Rig*, *Going Aloft*, *Tuning Your Rig*, *Splicing Wire Rope*, *25 Basic Knots*. Find more info and great rigging tools at www.briontoss.com.
